

In this fast-paced industry, many organizations have adopted or understand the need for, a BIM (Building Information Modeling) coordinator on projects.

Whether you are a small company operating without a CAD or BIM Manager, a larger company with a CAD or BIM Manager who would benefit from ad hoc assistance, or have a CAD or BIM Management team who may need extra resources during large projects, Interscale's BIM Manager as a Service offering can help..

Free up skilled staff from Autodesk administrative tasks allowing them to do more billable work, increasing productivity, reducing overheads, and driving more revenue. Whatever your CAD / BIM requirements, Interscale has a solution for you.

BIM AND CAD MANAGEMENT SERVICES

These services are aimed at companies using the Autodesk based products and have basically been put together to help our clients CAD users become more efficient and productive in their use of this product whilst also offering management services to free up their users to concentrate on getting out projects.
